## Wash your hands for 20 seconds or use hand sanitiser

Washing your hands is one of the most effective ways to stop the spread of the virus.

If you can't wash your hands while you are out, use hand sanitiser as often as possible.

Wash them regularly and for at least 20 seconds, before you go out and as soon as you get home.

# WE WANT YOUR INPUT!

An aerial photograph of Sandwell town at sunset, showing residential areas, green spaces, and industrial sites under a golden sky.

Residents and businesses in Sandwell are being urged to have their say on what improvements they would like to see as part of the Government's Towns Fund investment in Sandwell.

There will be up to £25 million available per town selected to develop innovative regeneration plans.

Last year, the Government announced that 101 towns would benefit from the Towns Fund deal – including Rowley Regis, Smethwick and West Bromwich – in Sandwell.

This is a really exciting opportunity to bring investment into Sandwell, we want to hear from as many people as possible.

You have until 25 August to [complete the survey](#) and help shape your town's future

This will be followed by a further Phase Two survey expected in September.
